## TRANSPORT OF DANGEROUS GOODS BY SEA

---

### IMDG Code Training - **FUNCTION SPECIFIC**

based on IMO Model Course 1.10

#### This course is intended for:

- *Chemical manufacturers, shippers, packers, freight forwarders*
- *Terminal and warehousing operators*
- *Feeder services, such as road, rail and inland water transport*
- *Other agencies involved in the transport of dangerous goods*

#### Course Contents:

- IMDG Code applicability
- Classification of dangerous goods
- Dangerous Goods List
- Product containment – Packaging
- Consignment procedures
- Marking and labeling of packages including IBCs.
- Placarding and marking of CTUs
- Documentation
- Construction and testing of packagings
- Transport operations (stowage, segregation and compatibility provisions)

Upon successful completion of the course, students will receive a training certificate that satisfies **IMDG Code 1.3.1 - Training of shore-side personnel** - for record keeping by the employer and for audit purposes by the competent authority.
